

## WHAT IF ...

### THE CHURCH

provided the hope of the Gospel where people least expected to find it?

Unemployment leads to social issues like homelessness, hunger, substance abuse, and crime – the combination of which spirals individuals into poverty. **The Church is uniquely positioned to help solve the problem.**

**Join a worldwide network of churches, businesses, and organizations addressing the devastating impact of joblessness in their communities.**

Jobs for Life provides proven tools communities can use to train men and women on how to find and keep a job. Churches and organizations lead a 16-session class where individuals learn soft skills, learn about God's design for work, develop character, and receive a supportive community through mentorship. The result is employed citizens capable of providing for their families, businesses having access to a well-trained workforce, and churches creating sustainable change in their communities through work and the Gospel.

**“** When church members find their volunteer niche, it helps them feel more connected to the church and to God. The Jobs for Life training program has given our members a way to apply their personal passions and skills to spread faith while positively impacting the lives of people locally. **”**

– Ham Melton, Associate Pastor, Trinity Baptist Church
